

Hassan Bin Nisar

MERN STACK DEVELOPER · FULL STACK · FRONTEND

+92 333 590 9273 hassanair5858@gmail.com Islamabad, Pakistan github.com/Hassanx-debug linkedin.com/in/hassanbinnisar

EXPERIENCE

Frontend Developer Intern 2025 · 3–6 Months
Rox Capitals · Islamabad, Pakistan

- Built and maintained responsive UI components with React.js and Tailwind CSS, ensuring consistent cross-device rendering.
- Integrated RESTful APIs using Axios to connect frontend views to live backend data, replacing manual data workflows.
- Refactored legacy UI into reusable React functional components with hooks, reducing code duplication across multiple pages.
- Coordinated with the backend team on API contracts and resolved integration bugs within active sprint cycles.

PROJECTS

FullCart — E-Commerce Platform MongoDB · Express · React · Node.js
Full Stack | REST API | JWT Auth | bcrypt | Tailwind CSS

- Engineered a full-stack e-commerce app with product listings, cart, and order management, handling the complete request lifecycle from UI to database.
- Designed 12+ RESTful API endpoints for products, users, and orders with role-based protected routes for customers and admins.

DevConnect — Developer Community Platform React · Node.js · MongoDB · Tailwind
Full Stack | Social Features | JWT Auth | Responsive UI

- Built a developer social platform with user profiles, post feeds, and nested comment threads with full CRUD per authenticated user.
- Delivered a fully responsive mobile-first interface with Tailwind CSS, maintaining layout integrity from 320px to 1440px.

HireFlow — Job Board & Freelance Marketplace MERN Stack · REST API · Bootstrap
Full Stack | Job Listings | Application Tracking | Role-based Access

- Developed a full-stack job board for employers to post roles and candidates to apply, with real-time status tracking on both sides.
- Built server-side search and filter by title, location, and category; modelled Mongoose schemas for Jobs, Users, and Applications.

QuickBite — Food Delivery App React · Express · MongoDB · Tailwind
Full Stack | Cart System | Context API | Order Placement

- Created a food ordering platform with menu browsing, cart management, and order placement using React Context API for persistent global cart state.

TaskFlow — Task Manager Dashboard React · Node.js · MongoDB · REST API
Full Stack | CRUD | Auth | Dashboard UI

- Built a productivity dashboard with task creation, status toggling, priority filtering, and due-date management per authenticated user.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3	Frontend: React.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs	Database: MongoDB, Mongoose ODM
Auth & Security: JWT, bcrypt, Role-based Access	State Mgmt: React Hooks, Context API
Tools: Git, GitHub, VS Code, Postman	Deployment: Vercel, Netlify, Render

EDUCATION

Bachelor of Science — Computer Science Expected May 2028
Air University, Islamabad · Faculty of Computing & AI
